4X4 EQUIPPED

TAKE THE LEAD WITH TJM.

At TJM, we understand the importance of being prepared: prepared for the adventure you're searching for and prepared for the unexpected bumps along the way. That's why we design, test and manufacture products to help you get 4x4 equipped to take on the most challenging off-road conditions imaginable. So, what are you waiting for? It's time to Take The Lead with TJM.

**TAKE
THE
LEAD.**

4X4 EQUIPPED

4X4 VEHICLE RECOVERY GEAR.

Vehicle recovery is just another part of the journey when you're travelling off-road. To help four-wheel drivers be prepared for whatever lies ahead, we've got a complete line-up of recovery gear to choose from. Ranging from snatch blocks and gloves to full-blown recovery kits, TJM offers recovery gear to suit all vehicles and recovery situations - allowing you to spend less time stuck and more time exploring off the beaten track.

Using a snatch strap and equaliser strap with a TJM bull bar's rated recovery points is the safest way to perform a snatch recovery.

TJM SNATCH STRAP.

The TJM snatch strap is a vital part of any 4WD recovery kit. The combination of vehicle pull and the tension in the strap creates a 'snatching' effect that can pull a stranded vehicle free from being bogged or unable to move under its own power.

Minimum breaking strength	15,000kg	11,000kg	8,000kg
Length	9m	9m	9m
Width	100mm	75mm	60mm
Stretch	20%	20%	20%
Material	100% nylon	100% nylon	100% nylon
Reinforced Eyelets	Yes	Yes	Yes
Eyelet & seam protector	Yes	Yes	Yes

TJM SNATCH STRAPS, RECOVERY STRAPS, AND KINETIC ROPES ARE MADE USING ONLY THE HIGHEST QUALITY MANUFACTURING PROCESSES AND MATERIALS THEN INDEPENDENTLY TESTED TO ASSURE PROPER FUNCTION AND BREAKING STRENGTHS ARE MET.

REINFORCED EYELETS

ALL TJM RECOVERY STRAPS AND KINETIC ROPES FEATURE REINFORCED EYELETS ON BOTH ENDS AS THIS IS NORMALLY THE AREA THAT WOULD TAKE THE MOST ABUSE.

KEEPERS INCLUDED FOR EASY STORAGE

(INCLUDED WITH BOTH RECOVERY STRAP AND KINETIC ROPE)

IDENTIFIABLE COLOURS & CLEARLY LABELLED

EACH TJM RECOVERY STRAP AND KINETIC ROPE HAS IT'S OWN IDENTIFIABLE COLOUR AND ON THE BACK OF EACH PROTECTIVE SLEEVE IS THE STRAP'S BREAKING STRENGTH.

NEOPRENE PROTECTIVE SLEEVES

THESE PROTECTIVE SLEEVES PROVIDE CLEAR LABELLING AND PROTECTION FOR THE SNATCH STRAP/ KINETIC ROPE AND THE VEHICLE DURING RECOVERY.

FLOATS ON WATER

SPORTING A LIGHTWEIGHT, YET HARDY CONSTRUCTION, THE KINETIC ROPE OFFERS WELCOME BUOYANT PROPERTIES THAT ARE SURE TO COME IN HANDY IF YOU'RE CAUGHT IN A PINCH AROUND WATER.

50%
MORE
STRETCH*

* Compared to traditional TJM snatch straps.

TJM KINETIC ROPES.

Offering 50% more stretch that standard snatch straps, the TJM Kinetic Rope is an essential part of your 4WD recovery arsenal and one you're going to need if you require a higher pull force. When put under load, the added stretch relieves the sudden shock felt during vehicle recovery, reducing the stress on the vehicle and those inside. It can also seamlessly convert kinetic energy into momentum to generate a higher pull force, which is absolutely vital in assisting recovery operations in very loose terrain such as sand, snow or mud.

Minimum breaking strength	13,000kg	8,500kg
Length	9m	9m
Diameter	22mm	19mm
Stretch	30%	30%
Material	100% nylon	100% nylon
Reinforced eylet	Yes	Yes

It is very important that a strap/rope with the correct breaking strength is used. A 'too light' strap/rope may break under load. A 'too heavy' strap/rope may not stretch properly and more stress will be placed on the recovery points, possibly causing damage or injury. The minimum breaking strength of the strap/rope should be 2-3 times the Gross Vehicle Mass (GVM) of the lighter of the two vehicles used in the recovery process. Be aware that the recovery strap/kinetic rope will be under greater load if the vehicle is bogged in mud, sand or heavily loaded. If the GVM is not stated on the identification plate of a vehicle or its registration certificate, check the owner's handbook or with the vehicle manufacturer.

TJM RECOVERY STRAPS.

Tree trunk protectors & combination tree trunk protector + equaliser strap

A TJM tree trunk protector strap is vital in protecting the tree from ring barking whilst anchoring to a tree.

Minimum breaking strength	10,000kg	8,000kg
Length	5m	3m
Width	75mm	75mm
Material	100% polyester	100% polyester
Reinforced eyelets	Yes	Yes
Eylet & seam protector	Yes	Yes

Winch extension strap

A TJM winch extension strap is designed for when extra length is required for winching or to reach a suitable anchor point, the TJM winch extension strap is more convenient to store than extra lengths of winch cable.

Minimum breaking strength	6,000kg
Length	20m
Width	60mm
Material	100% polyester
Reinforced eyelets	Yes
Eylet & seam protector	Yes

TJM RECOVERY KITS.

Vehicle recovery is all part of travelling off-road, not the sign of a journey gone wrong. To be fully equipped for whatever lies ahead, 4WD travellers and their 4x4 should always be prepared to extract a vehicle in need. With a range of snatch strap kits, kinetic rope kits, and complete recovery kits, TJM has ready-made vehicle recovery tools to suit all kinds of recovery situations.

8T snatch strap kit

- 8,000kg snatch strap 60mm x 9m
- 2x 16mm bow shackles (3.25T WLL)
- XL recovery gloves
- Medium gear bag
- 2x strap keepers

11T snatch strap kit

- 11,000kg snatch strap 75mm x 9m
- 2x 19mm bow shackles (4.75T WLL)
- XL recovery gloves
- Medium gear bag
- 2x strap keepers

Large recovery kit

- 8,000kg snatch strap 60mm x 9m
- 6,000kg winch extension strap 60mm x 20m
- 8,000kg combination tree trunk protector & equaliser strap 75mm x 3m
- 10,000kg snatch block
- 2x 16mm bow shackles (3.25T WLL)
- Recovery blanket
- XL recovery gloves
- Large gear bag
- 6x strap keepers

Heavy duty recovery kit

- 11,000kg snatch strap 75mm x 9m
- 6,000kg winch extension strap 60mm x 20m
- 10,000kg tree trunk protector 75mm x 5m
- 10,000kg snatch block
- 2x 19mm bow shackles (4.75T WLL)
- 2x 16mm bow shackles (3.25T WLL)
- Recovery blanket
- XL recovery gloves
- Large gear bag
- 6x strap keepers

8.5T kinetic rope recovery kit

- 19mm^Ø x 9m (8,500kg) kinetic rope with neoprene sleeve
- 2x strap keepers
- XL recovery gloves
- 2x 10mm (21,000kg) soft shackles
- Recovery blanket
- Medium gear bag

13T kinetic rope recovery kit

- 22mm^Ø x 9m (13,000kg) kinetic rope with neoprene sleeve
- 2x strap keepers
- XL recovery gloves
- 2x 10mm (21,000kg) soft shackles
- Recovery blanket
- Large gear bag

TJM has the ultimate range of 4x4 accessories to suit all 4WD adventures with everything you need to tackle most situations.

Vehicle recovery is a potential part of most off-road journeys - be prepared for the unexpected with TJM 4x4 recovery gear.

TJM has a comprehensive range of recovery gear so you can build a kit to suits your needs.

TJM SNATCH BLOCK.

The TJM 10T Snatch Block can effectively double the capacity of your recovery winch. They are also useful in recovery situations where the winch anchor point is not in a direct line of the vehicle's winching direction. The TJM snatch block is complete with greasable nipple for smooth, trouble-free operation, while it has a rated working load of 10,000kg.

Pulley diameter	98mm \varnothing
Locking nut	Black electro-coated steel
Weight	2.4kg
Max. rope/ cable size	11.1mm \varnothing (7/16")

THREADED PIN & NUT WITH
LOCKING TABS PREVENTS
SIDE PLATES FROM
DISASSEMBLY UNDER
EXTREME LOADS.

TJM RECOVERY RING.

The TJM Recovery Ring is a lighter weight option than traditional snatch blocks, suitable for use with a TJM soft shackle & synthetic rope. The TJM Recovery Ring is precision CNC machined from T6 6060 aluminium, finished in a smooth grey anodised finish to reduce friction, wear which can lead to premature failure of your shackle & rope. It comes supplied with a handy storage bag.

WLL	10,000kg
Size	125mm ^Ø OD x 40mm ^Ø ID 36mm width, sheave 96mm ^Ø
Material	6061 T6 aluminium
Weight	850 grams
Finish	Grey anodise
Suits	9.5-14mm ^Ø synthetic rope

RECOVERY HITCH.

If you're planning on going off-road, it is essential that your vehicle have at least one rear recovery point. TJM's range of recovery hitches are the perfect solution.

Specifically designed to fit into leading manufacturer tow hitches and TJM rear step tow bars, and able to be turned for both horizontal or vertical shackle alignment (to avoid shackle binding) our hitches are built to go the distance.

	Steel Recovery Hitch	Alloy Recovery Hitch	Extended Alloy Recovery Hitch
Material	Steel	6061 T6 aluminium	6061 T6 aluminium
Weight	3.2KG	850g	1200g
Finish	Zinc coating	Grey anodised	Grey anodised

SOFT SHACKLES.

Make vehicle recovery simpler and safer with a TJM 21T Soft Shackle. Weaved from genuine Spectra® fibre, the TJM 21T Soft Shackle has a minimum breaking strength of 21,000kg that allows you to recover your 4x4 with confidence.

TJM synthetic rope shackles are lightweight, flexible and highly functional - their soft, one-piece construction allows them to fit around difficult pulling points and requires no pin-fastening. Every TJM 21T Soft Shackle has a braided sleeve for added protection against sharp edges and abrasions. Additionally, due to its lightweight construction, the TJM soft shackle will float on water - an incredibly useful quality during amphibious recoveries.

Note: Remember to check that your recovery hitch or rated recovery points are compatible with soft shackles before use.

16 & 19MM SHACKLES.

TJM bow shackles form a key link in joining equipment for vehicle recovery situations. Our shackles are forged from steel, galvanised, then powdercoat bright yellow for clear visibility.

A TJM soft shackle provides a simpler and safer means of vehicle recovery.

ELECTRIC WINCHES.

Venture further afield and explore Australia's most exciting 4WD destinations with a TJM Torq Winch.

Whether you're travelling on your own or in a group, a winch is a powerful recovery tool that makes extracting vehicles simple and safe. Plus, because local tracks and far-off places both have the potential to get 4x4s stuck, a winch is useful to have on either a weekend away or on a solo outback adventure.

TJM Torq winches are designed and tested in Australia to ensure they're ready to perform in all conditions, while their finely tuned balance of power and line speed will help you get back on track fastest. Meanwhile, because they're available in various sizes and cable options, there's a Torq Winch to suit every adventurer.

TRED HD.

Make a new path with TJM Tred HD Recovery Boards. TJM Tred HD Recovery Boards simplify vehicle recovery in sand, mud or snow by giving your 4x4's tyres reliable traction in otherwise traction-less situations.

PREMIUM GLOVES.

TJM Premium Gloves are professional grade recovery gloves. These gloves ensure safe and controlled winching, using wire or synthetic winch ropes. Durable materials and padding protect the palms of your hands from winch rope burns and cable spikes. For added practicality, they also feature mobile-phone compatible fingertips (thumb and forefinger) so you can use your phone hassle-free. Our well-designed combination of synthetic leather and spandex lines the glove for maximum comfort and dexterity.

TYRE REPAIR KIT.

An essential accessory for off-road travellers, the TJM Tyre Repair Kit is an easy solution for fixing tyre punctures while you're off the beaten track. An effective temporary solution that will help keep your adventure going.

RECOVERY BLANKET.

The TJM Recovery Blanket can help tame a strap or winch cable in the event of breakage and reduce the chance of whip-like recoil. To use simply drape the recovery blanket over the centre of the recovery strap or winch cable/rope being used for a recovery. The blanket's material and weight has been carefully engineered for use in wet and dirty conditions making it an essential part of any recovery kit.

RECOVERY JACK.

TJM's recovery jack is a versatile piece of equipment that provides lifting assistance to aid vehicle recovery. This jack fits directly into our unique bull bar T-slot recovery point which has been extensively tested and can be found on many of our steel bull bars.

JACK BASE.

This TJM Recovery Jack Base gives your recovery jack a larger, more stable footprint for safer lifting.

_____, CAMERA, ACTION.

Shed some light on your next adventure with our range of lighting solutions. At TJM, we have a huge range of round driving lights, light bars, work lights or camp lights for all your lighting needs.

C'MON IN,
THE WATER'S FINE.

Snorkels are commonly the first accessory fitted to a four-wheel drive, and with good reason.

The air quality at roof level is cleaner and cooler than air travelling through and around the bonnet, which means greater fuel efficiency and less clogging of air filters when a snorkel is fitted.

WINCH, WINCH
NUDGE, NUDGE.

A TJM Torq Winch is an essential risk-management tool when venturing to exciting off-road destinations. Our range of Torq Winches have superior power for increased line speed and faster recovery and, because they're available in a wide range of 9,500lb and 12,000lb options, there's a TJM Torq winch to fit your 4x4.

HIGH RISE ACCOMMODATION IN ANY LOCATION.

TJM roof top tents have been designed for ultimate comfort and maximum durability. Made from high-quality poly-cotton ripstop fabric, all elements of our tents are double stitched for exceptional longevity and waterproofing, allowing you to get the good night's sleep you deserve.

POWER TO TAKE YOU FURTHER.

Power and communications solutions help you stay on the road (and off the beaten track) safely, more comfortably and for longer. Get equipped at TJM with battery management systems, UHF radios, solar power solutions and more.

BLOW AWAY THE CHASING PACK.

The TJM Pro Series compressor range delivers faster inflation and longer running times thanks to their high flow rates, innovative convection cooling system and 100% Duty Cycle. Painstakingly designed and brilliantly engineered, TJM Pro Series compressors boast unbeatable endurance and performance.

DRAWER-DROPPING STORAGE.

JOIN OUR CLUB.

GET OFF-ROAD SOONER.

Aeroklas Drawers are lightweight yet strong thanks to their galvanised steel chassis that's finished with glass-filled polypropylene top panels and wing kits.

Meanwhile, Aeroklas Drawers utilise a fully sealed runner system to make sure they work reliably and rattle-free time and time again - whether you're on the job site, on the road or at camp.

Join Club TJM today to get access to heap of exclusive member-only benefits: sneak peeks at new products, special offers on gear, entry to mouth-watering competitions, quick and easy online quoting and VIP guides and off-road tips to help you explore more.

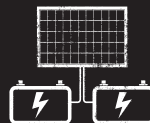

Buy now, pay later with Zip. Enjoy interest-free payments on purchases at TJM so you can get equipped with anything from a camp chair to a full 4x4 fit-out, today. With Zip, you can own what you love and pay how you like.

GET EQUIPPED FOR ANYTHING.

4X4 FITOUTS

Every TJM distributor is equipped with a fully functional workshop and experienced fitment staff that can help get your 4x4 ready for whatever lies ahead. After purchasing fitted accessories like a bull bar, recovery winch, side steps, canopies and more, simply ask our team to organise fitment of your new gear to your vehicle.

DUAL BATTERY SYSTEM SETUPS

If you want to have instant access to power from your vehicle – whether it's to power camping lights, a fridge or various 12v appliances – an auxiliary power system is essential. Talk to your local TJM distributor to find the right system and to get our expert team to install it, giving you peace of mind and the power to go further.

SUSPENSION & GVM UPGRADES

Upgrading your vehicle's suspension system or Gross Vehicle Mass (GVM) enhances your 4x4's on and off-road potential by increasing its ride, comfort, handling and load-carrying capability. As suspension experts, TJM can tailor a suspension solution to suit you, your vehicle and the loads you need to carry.

STORAGE SOLUTIONS

You can store more and do more with your 4x4 thanks to TJM's range of exceptional storage solutions. Ranging from customised drawer systems to ute canopies that seamlessly integrate with your vehicle, TJM has the perfect storage solution to help you carry more gear, access it faster and protect it better.

COMMUNICATIONS INSTALLATIONS

Tools like antennas and UHF radios combine to give you the ability to communicate with other travellers and get help in emergency situations when in remote areas. Find out which setup is right for you and get it installed in your vehicle quickly and professionally visiting a TJM distributor and consulting with our experienced team members.

PRE-TRIP INSPECTIONS

Any off-road trip can be cut short if your vehicle is not properly prepared for the journey. Guard yourself and your vehicle from some potential surprises by getting our expert staff to have a look at the state of your 4x4 before you hit the road.

WE'VE GOT YOUR BACK!
