TAKE THE LEAD WITH TJM.

At TJM, we understand the importance of being prepared: prepared for the adventure you're searching for and prepared for the unexpected bumps along the way. That's why we design, test and manufacture products to help you get 4x4 equipped to take on the most challenging off-road conditions imaginable. So, what are you waiting for? It's time to Take The Lead with TJM.

OUR LEGENDARY STRENGTH STARTS WITH OUR SOLID FOUNDATION.

Our innovative winch frame mount system not only gives your recovery winch a secure home, but its connection to your vehicle's chassis is so strong that it allows us to include rated recovery points as standard - giving you the strongest possible bull bar and an extra recovery tool all at once.

FIGURE 1

FIGURE 2

FIGURE 3

OUR PATENTLY STRONG STEEL WINCH FRAME CREATES A SECURE HOME FOR YOUR CHOICE OF RECOVERY WINCH.

8000_{kg}

OUR DESIGN IS SO STRONG THAT RATED RECOVERY POINTS AREN'T A BOLT-ON EXTRA - THEY'RE A STANDARD FEATURE.

Image for illustration purposes.

TJM ENGINEERS REPLICATE THE VEHICLE'S CRUSH CHARACTERISTICS THROUGH OUR UNIQUE MOUNTING SYSTEM. WE'VE ACHIEVED THE MAXIMUM PROTECTION FOR YOU AND YOUR VEHICLE WITHOUT AFFECTING THE VEHICLE'S AIRBAG TRIGGERING SYSTEM.

AND ENDS WITH ONE OF THE MOST FEATURE-PACKED BARS IMAGINABLE.

Our bull bars are designed to be as functional as they are strong, which allows your 4x4 to reach its true potential.

TJM OUTBACK BULL BAR.

TJM's Outback bar for the Mazda BT-50 incorporates a high-flow grille system to ensure the powertrain receives as much airflow as possible while still maintaining optimal strength during impact events. Its unique design is made from high-strength steel and finished with our world class powder coat to maximise durability in the harshest conditions imaginable.

WEIGHT WITHOUT ACCESSORIES = 69.8KG
 LENGTH IN FRONT OF BUMPER = 150MM
 DISTANCE BETWEEN CATOS = 767MM

Features and benefits

- 63mm^ø tubing
- One piece rolled Cato uprights
- Under wing protection guards
- 20mm channel radius for added strength and style
- Designed for optimal approach angle
- Reinforced T-slot recovery jack points
- Accommodates driving lights
- Flush steel mounted LED combination indicator/park lights with tough polycarbonate lenses
- Provision for fitment of dual aerials
- Does not void your new vehicle warranty
- Bumper cut design
- Fog light blanking covers standard, optional fitment of TJM LED fog lights (Available separately)

Technical specifications

Safety

Compatible with Mazda ADAS System Adaptive Cruise Control, Autonomous Emergency Braking, Forward Collision Warning, Lane Departure Prevention, Lane Departure Warning, Lane-Keep Assist System

Winch compatibility

Rated to take up to 9,500lb winch

Recovery points

Combined 8000kg rating with equaliser strap

Boasting an all-steel construction that's designed to thrive in extreme conditions, the TJM Outback bar delivers unparalleled protection for your 4x4.

TJM RB6 REAR STEP TOW BAR.

Whether you're on a bumpy track or in a carpark, the back of any 4x4 is susceptible to panel and bumper damage. With a TJM RB6 Rear Step Tow Bar, you can guard the back of your 4x4 and give yourself peace of mind. Thanks to its thick 63mm^Ø steel tubing and durable alloy treadplate, a TJM RB6 Rear Step Tow Bar offers supreme protection while making rear vehicle access simple and safe.

- 63mm^Ø steel pipework for excellent rear protection
 - Compatible with rear cross-traffic alert and blind spot monitoring (BSM)
 - Durable and light weight alloy checker plate step provides easy access to the rear of the vehicle
 - Reinforced T-slot recovery jack points
 - Provision for 7 pin and 12 pin trailer connectors. Including 50A anderson plug
 - Provision for OE reverse park assist accessory
 - ADR62 certified, class 4 heavy duty towbar*
 - Does not void your new vehicle warranty
 - Tested for maximum towbar capacity 3500kg - maximum towball down load 350kg. Refer to manufacturer's handbook for maximum towing loads
- *Towball not included with tow hitch

WEIGHT = 66KG LENGTH BEHIND TUB = 100MM

*TJM recommend not leaving the tow hitch in the hitch receiver to minimise the possibility of sensors activating.

Add extra protection and functionality to the back of your 4x4 with a TJM rear bar.

TJM SIDE BARS & SIDE STEPS.

TJM Side Bars and TJM Side Steps allow you to protect and access your BT-50 with ease. TJM Side Bars feature a strong yet lightweight 63mm^Ø tube section that provides optimum protection for the guards, along with additional support for your bull bar's tubing and side steps.

TJM Side Steps and TJM Side Bars are uniquely designed to be modular. This means a TJM Side Step can be fitted independently of a TJM Side Bar, which gives you the freedom to have side steps fitted to your 4x4 with the option of adding side bars later.

- 63mm^Ø steel tubing provides unrivalled wheel arch and panel protection
- Styled to complement the BT-50's unique design
- 3 tube chassis mount system on each side for increased strength and protection
- Airbag compatible mounting system - does not void your new vehicle warranty
- ADR compliant

Technical specifications

Material	Black powder coat steel with alloy checker plate step tread
Size	Chassis mounted 63mm ^Ø tube
ADR	Side airbag compliant

TJM UNDERBODY GUARDS.

To protect the most vulnerable components underneath the vehicle, TJM Underbody Guards are constructed from 3mm thick steel sheet and incorporate strategic folds for incredible strength. They are powder-coated black for corrosion resistance of up to 500 hours.

- Press folded in strategic areas for maximum strength
- Front underbody, sump and transmission guards available separately
- Drain access holes for sump and transmission where necessary

AEROKLAS UTE LINER.

Designed to protect and made to last, Aeroklas Ute Liners are the perfect shield for the inner side of your ute bed.

Aeroklas Ute Liners are constructed from High-Density Polyethylene (HDPE) plastic, which is incredibly strong, lightweight and maintenance-free. The strength and durability of this material eliminates the risk of the ute liner chipping or cracking.

Technical specifications

HDPE Construction	Robust yet flexible Eliminates the risk of chipping and cracking Lightweight and scratch-resistant
Maximum Protection	Provides the highest level of protection for your vehicle's ute bed UV stabilised for protection from the harsh sun

Under rail

AEROKLAS CANOPY.

Aeroklas canopies lead the market, with world class manufacturing and technologies for ABS (Acrylonitrile Butadiene Styrene) double shell canopies. Incredibly lightweight and strong, Aeroklas canopies feature a twin-skin design that is thermoformed from a single piece of ABS, leaving minimal potential for stress points.

Aeroklas canopies are suited for discerning customers seeking optimal space and aesthetics. With an array of standard features including central locking (rear door) and lockable side windows, the Aeroklas Stylish range will provide lasting protection and looks for many years.

4YR
4 YEAR
WARRANTY*

TJM AIRTEC SNORKELS.

Deliver clean air to your engine in all kinds of conditions with a TJM Airtec Snorkel. Designed to prevent water and dust ingress into your engine during your travels, you can traverse Australia's many off-road destinations with confidence when you've got a TJM Airtec Snorkel fitted to your 4WD.

Constructed from heavy-duty materials and individually designed to suit the shape of your vehicle, a TJM Airtec polyethylene snorkel ensures your 4x4's engine receives clean, dry air in all kinds of conditions. In combination with excellent impact resistance and durability in extreme temperatures, every TJM Airtec Snorkel is built to perform an essential task and look good while doing so.

Image & diagram for Illustration purposes

DESIGNED FOR EXTREME TEMPERATURES

COMPONENTS THAT ARE HIDDEN UNDERNEATH THE BONNET ARE SUBJECTED TO TEMPERATURES OFTEN EXCEEDING 100°C. TJM AIRTEC SNORKELS USE MATERIALS THAT CAN WITHSTAND EXTREME TEMPERATURES.

COLOUR FAST

TJM USE A PROCESS CALLED 'COLOUR COMPOUNDING' WHERE THE PIGMENT IS MIXED INTO THE MOLTEN RESIN BEFORE THE AIRTEC SNORKEL IS MOULDED. THIS ENSURES EVEN COLOUR SATURATION AND PREVENTS RUBBING OFF OR BLEEDING.

Typical Airtec snorkel installation

How a TJM Airtec air ram disperses rain water.

1. Rain water drops entering the air ram of a TJM Airtec Snorkel are captured at the back of the inside curved surface, pooled around the base of the air ram and dispersing through the drain holes.
2. In the off chance that any minute rain water droplets find their way into the snorkel body, they will be atomized at the air filter.
3. Finally, the last line of defence is the original water drain in the vehicle's air cleaner assembly.

TJM Airtec Wedgetail Snorkel also available.

Featuring a sleek design that effectively blends with your vehicle's roof and windscreen profile, TJM Airtec Wedgetail Snorkel rams offer a different look to traditional polyethylene 4x4 snorkels while retaining peak performance.

SHOCK YOUR MATES.

XGS Suspension is designed to elevate your vehicle's core potential and your own driving experience. An XGS Suspension upgrade will make your 4WD more comfortable over changing terrain while improving how it responds while braking, accelerating and cornering. Meanwhile, in addition to added ground clearance for touring and four-wheel driving, XGS Suspension offers outstanding load-carrying and towing capabilities compared to your vehicle's standard suspension system.

BUILT TO PERFORM

MADE IN AUSTRALIA

XGS GVM PLUS.

Whether it's for work or off-road touring, if you've got yourself a 4WD, chances are you're decking it out with 4x4 essentials such as bull bars, underbody guards, side steps and so on. Doing so can quickly exceed your 4x4's legal Gross Vehicle Mass (GVM), the maximum a vehicle can weigh when fully loaded, and it can have disastrous consequences. Furthermore, everything you place on or in your vehicle adds to the overall GVM as well. This includes fuel, passengers, other cargo and accessories, and even the tow ball load applied by a boat or camper trailer.

BOCAR IS NOW AT TJM.

Since 1970, Bocar has been producing heavy duty alloy ute trays, bull bars, nudge bars and accessories that are synonymous with quality, style, durability and performance.

Bocar design, engineer and test all of their products right here in Australia, to ensure they're more than equipped to suit our tough Australian conditions.

Bocar's goal is to supply high quality heavy duty products and great value for money to everyone in the automotive industry each and every day.

BOCAR / BUILT TOUGH

BUILT TOUGH, ALLOY UTE TRAYS.

Built tough and ready for whatever you throw at it, Bocar Ultimate & Deluxe Series ute trays continue to set the standard.

Designed, engineered and built right here in Australia, all of our ute trays are well equipped to tackle the challenges of the harsh Australian environment and offer a range of accessories to make your tray your own.

Bocar alloy trays are covered by a 2-year 40,000km warranty.

READY TO PROTECT, STEEL BULL BARS.

Stylish and functional, the Bocar Stockade Series bull bar is built with a seriously strong steel construction and 63mmø rounded tubing. Plus they're safety compliant, airbag compatible and ready to protect you and your vehicle.

All Bocar bull bars are covered by a 2-year 40,000km warranty, giving you peace of mind to get it fitted and get on with the job.

GET THE JOB DONE, ALLOY NUDGE BARS.

For off-road use and the rough Australian environment, you can't be without the protection and safety offered by a Bocar nudge bar.

A Bocar Nudge Bar offers your utility vehicle additional protection from potential dents and scratches, while simultaneously increasing the customisation offered thanks to its built-in accessory mounts.

Bocar nudge bars are covered by a 2-year 40,000km warranty.

AND THERE'S SO MUCH MORE...

_____, CAMERA, ACTION.

GEAR TO GET YOU
OUT OF THERE.

WINCH, WINCH
NUDGE, NUDGE.

Shed some light on your next adventure with our range of lighting solutions. At TJM, we have a huge range of round driving lights, light bars, work lights or camp lights for all your lighting needs.

Vehicle recovery is a potential part of most off-road journeys – be prepared for the unexpected with TJM's range of recovery kits, winches, recovery tracks and more.

A TJM Torq Winch is an essential risk-management tool when venturing to exciting off-road destinations. Our range of Torq Winches have superior power for increased line speed and faster recovery and, because they're available in a wide range of 9,500lb and 12,000lb options, there's a TJM Torq winch to fit your 4x4.

A SPOT IN THE SHADE WHEREVER YOU GO.

A TJM awning gives you instant comfort and protection from the elements wherever you pull up. Swift to set up in under 30 seconds and simple to pack away, TJM awnings are available in three sizes to perfectly suit your travel style.

POWER TO TAKE YOU FURTHER.

Power and communications solutions help you stay on the road (and off the beaten track) safely, more comfortably and for longer. Get equipped at TJM with battery management systems, UHF radios, solar power solutions and more.

BLOW AWAY THE CHASING PACK.

The TJM Pro Series compressor range delivers faster inflation and longer running times thanks to their high flow rates, innovative convection cooling system and 100% Duty Cycle. Painstakingly designed and brilliantly engineered, TJM Pro Series compressors boast unbeatable endurance and performance.

DRAWER-DROPPING STORAGE.

JOIN OUR CLUB.

GET OFF-ROAD SOONER.

Aeroklas Drawers are lightweight yet strong thanks to their galvanised steel chassis that's finished with glass-filled polypropylene top panels and wing kits.

Meanwhile, Aeroklas Drawers utilise a fully sealed runner system to make sure they work reliably and rattle-free time and time again - whether you're on the job site, on the road or at camp.

Join Club TJM today to get access to heap of exclusive member-only benefits: sneak peeks at new products, special offers on gear, entry to mouth-watering competitions, quick and easy online quoting and VIP guides and off-road tips to help you explore more.

Buy now, pay later with Zip. Enjoy interest-free payments on purchases at TJM so you can get equipped with anything from a camp chair to a full 4x4 fit-out, today. With Zip, you can own what you love and pay how you like.

GET EQUIPPED FOR ANYTHING.

4X4 FITOUTS

Every TJM distributor is equipped with a fully functional workshop and experienced fitment staff that can help get your 4x4 ready for whatever lies ahead. After purchasing fitted accessories like a bull bar, recovery winch, side steps, canopies and more, simply ask our team to organise fitment of your new gear to your vehicle.

DUAL BATTERY SYSTEM SETUPS

If you want to have instant access to power from your vehicle – whether it's to power camping lights, a fridge or various 12v appliances – an auxiliary power system is essential. Talk to your local TJM distributor to find the right system and to get our expert team to install it, giving you peace of mind and the power to go further.

SUSPENSION & GVM UPGRADES

Upgrading your vehicle's suspension system or Gross Vehicle Mass (GVM) enhances your 4x4's on and off-road potential by increasing its ride, comfort, handling and load-carrying capability. As suspension experts, TJM can tailor a suspension solution to suit you, your vehicle and the loads you need to carry.

STORAGE SOLUTIONS

You can store more and do more with your 4x4 thanks to TJM's range of exceptional storage solutions. Ranging from customised drawer systems to ute canopies that seamlessly integrate with your vehicle, TJM has the perfect storage solution to help you carry more gear, access it faster and protect it better.

COMMUNICATIONS INSTALLATIONS

Tools like antennas and UHF radios combine to give you the ability to communicate with other travellers and get help in emergency situations when in remote areas. Find out which setup is right for you and get it installed in your vehicle quickly and professionally visiting a TJM distributor and consulting with our experienced team members.

PRE-TRIP INSPECTIONS

Any off-road trip can be cut short if your vehicle is not properly prepared for the journey. Guard yourself and your vehicle from some potential surprises by getting our expert staff to have a look at the state of your 4x4 before you hit the road.
